

UNDER STORY

*Under the witness trees, where your **Story** begins*

LINDEN HALL

(Welcome Love)

Every celebration begins with a gathering. Linden Hall is designed as a welcoming arrival space where family and friends come together, setting the tone for the moments ahead.

WILLOW HALL

(Forever Love)

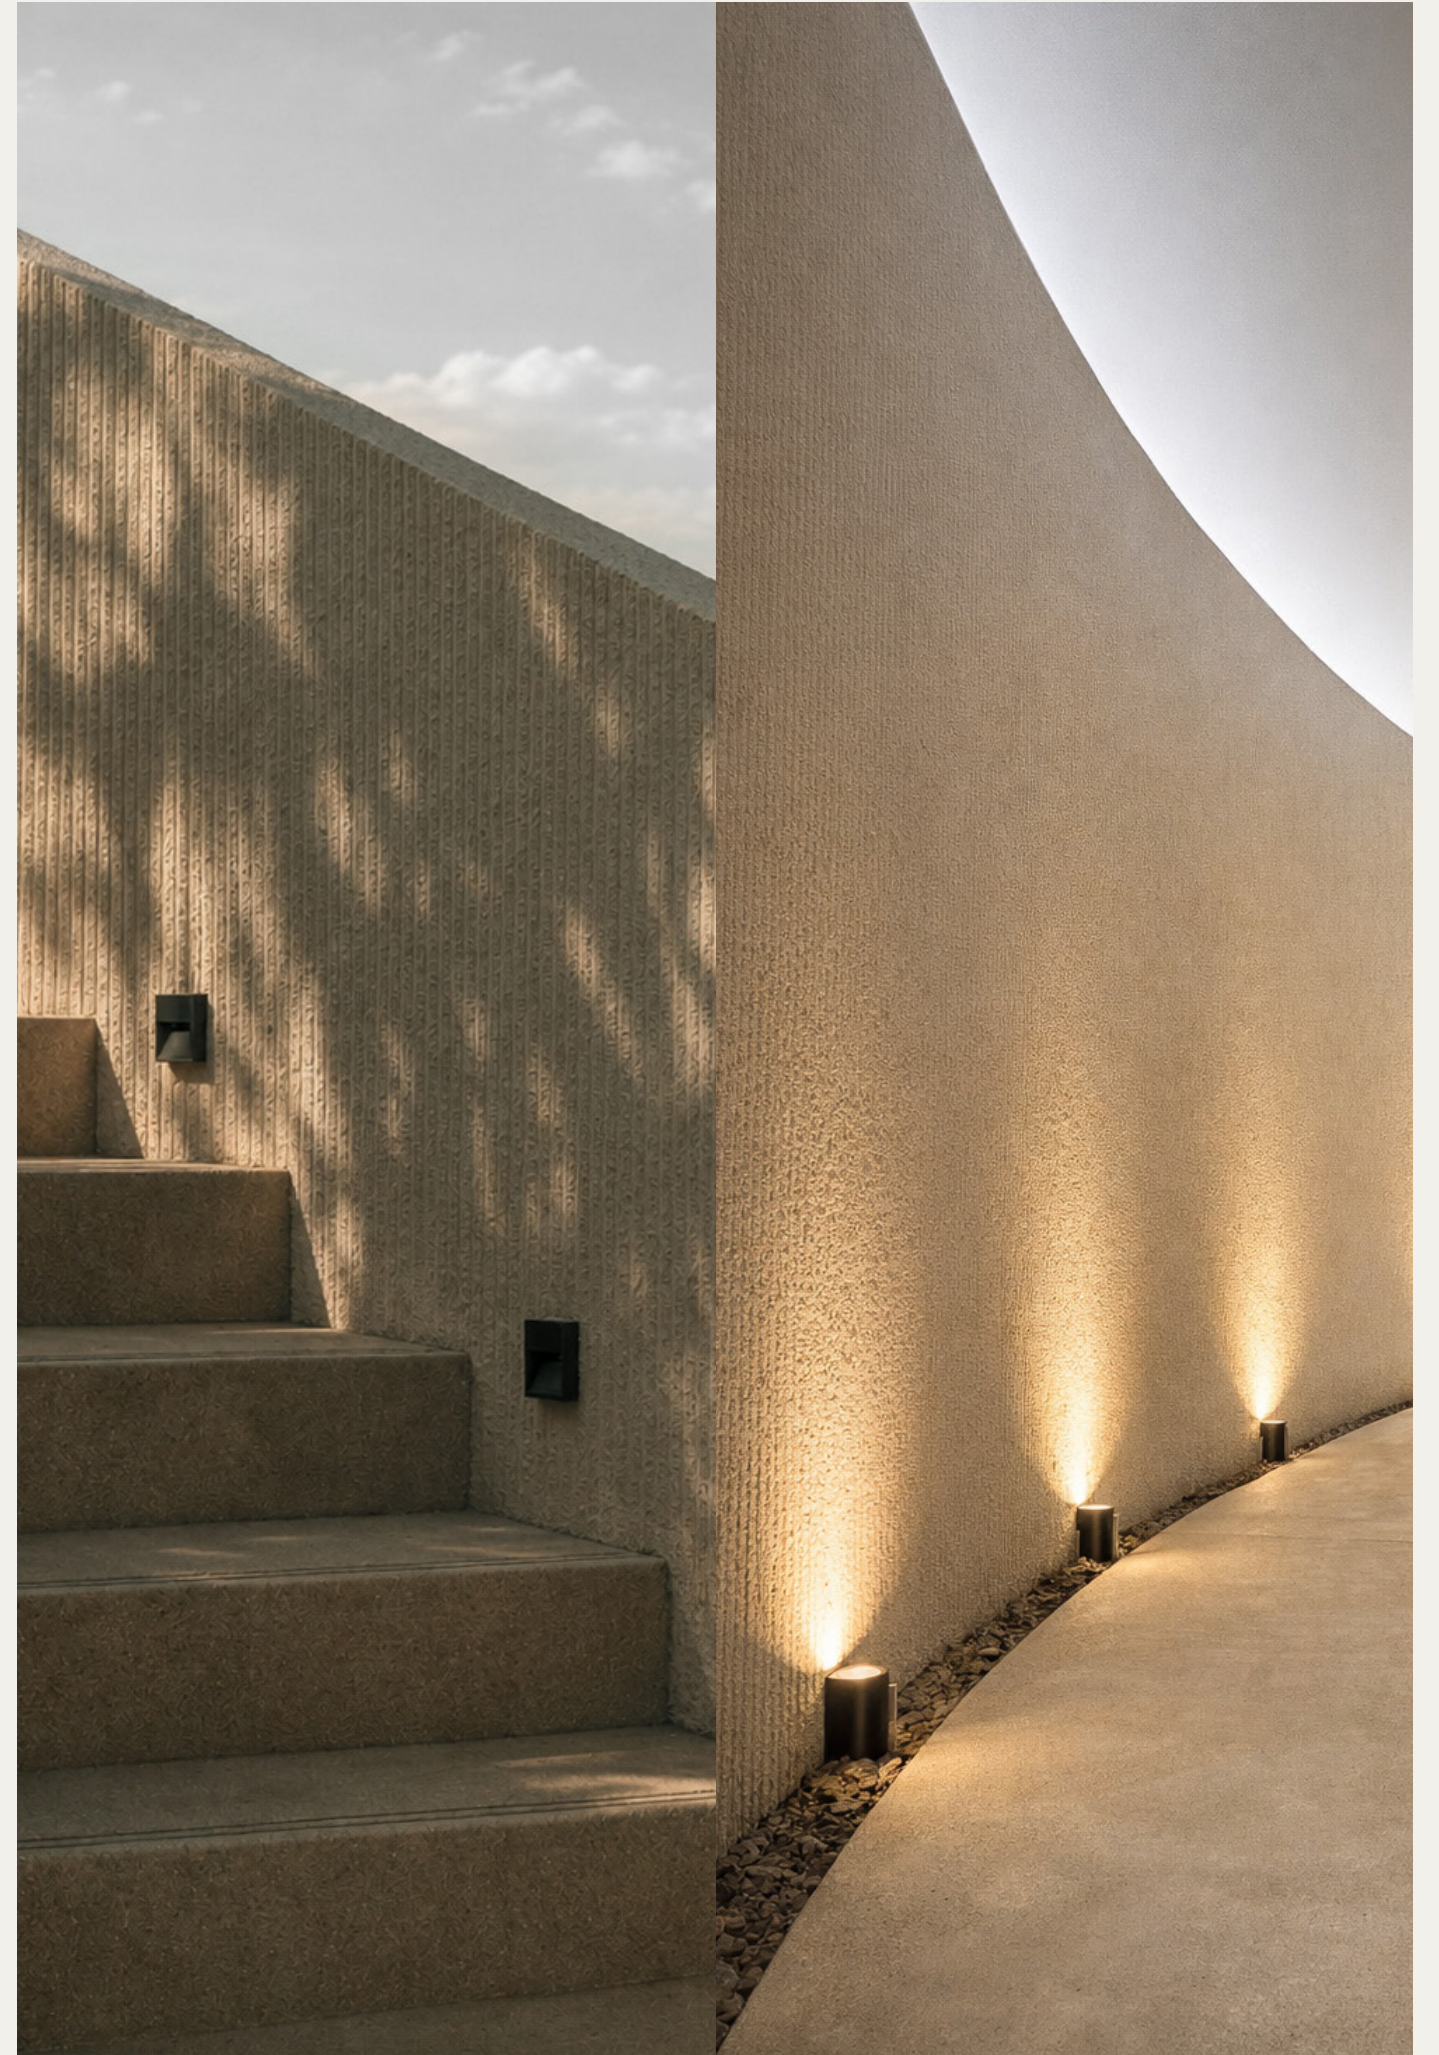

At the heart of every wedding lies a promise. Willow Hall is designed for the exchange of vows, where timeless architecture frames the beginning of forever.

MISTLE HALL

(Celebrate Love)

After the vows are spoken, the celebration begins. Surrounded by nature and open skies, Mistle Hall is a setting for joyful gatherings, meaningful connections, and memories that linger long after the day has ended.

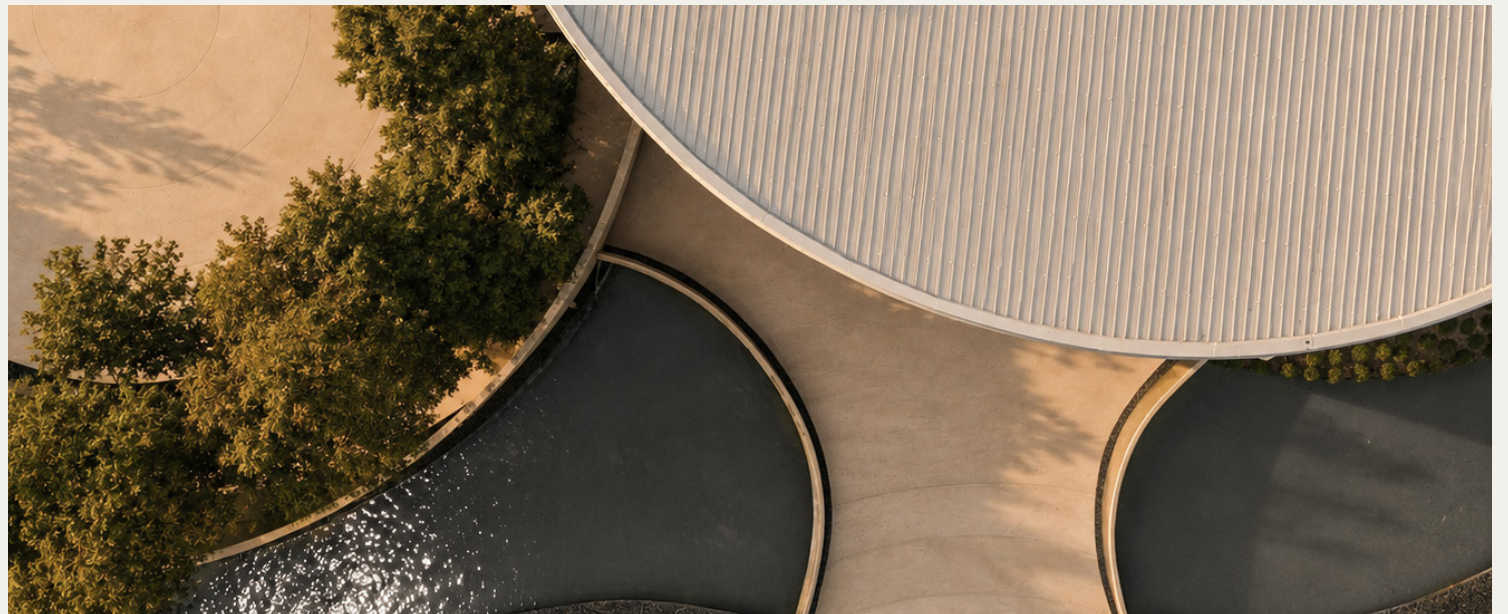

Inspired by the spaces between branches where sunlight filters through a forest canopy, circular openings bring natural light deep into the venue. As the day unfolds, shifting shadows become part of the celebration.

Understory is designed as a sequence of unfolding experiences. Curved pathways, layered courtyards, and interconnected spaces gently guide guests through the celebration, creating moments of discovery at every turn.

Soft mineral tones, textured surfaces, natural stone, and exposed concrete form a timeless architectural palette. Together, they create a quiet backdrop that allows every celebration to take center stage.

Water, trees, and open courtyards are woven throughout the venue, dissolving the boundaries between architecture and nature.

UNDER THE WITNESS TREES,
WHERE YOUR STORY BEGINS.
